TOLUCA LAKE DIRECT PATIENT CARE

ACCESSIBILITY STATEMENT

Effective date: October 1, 2026

The Practice wants bartonshealth.com to be usable by as many people as possible. We currently use the PRO version of the WP Accessibility plugin which has a tremendous number of accessibility options.

Accessibility is an ongoing effort. The Practice welcomes feedback concerning website accessibility and continually evaluates opportunities to improve the user experience for all visitors.

Some pages or third-party services may not yet work as expected for every visitor. If you have difficulty using the website, need information in another format, or need help scheduling, please contact the practice.

Please contact us on our contact page and tell us which page or service you were using and what barrier you encountered. Do not include sensitive medical details in an accessibility report. We will make reasonable efforts to respond and provide an accessible alternative.
